PROFESSIONAL SUMMARY

Frontend Developer specializing in React and modern JavaScript, experienced in building responsive, high-performance, and user-focused web applications. Skilled in developing reusable components, integrating REST APIs, and creating intuitive user interfaces with a focus on clean, scalable, and maintainable code.

EDUCATION

2024 - Present	BS Software Engineering National University of Modern Languages (NUML), Islamabad
2022 - 2023	Intermediate in Computer Science Govt. Sarwar Shaheed College, Gujar Khan
2020 - 2021	Matriculation in Science Govt. M.C. Boys Higher Secondary School, Gujar Khan

PROJECTS

E-Commerce Store (React • Tailwind CSS)

- Built a responsive e-commerce application using React and Tailwind CSS.
- Implemented product browsing, category filtering, and shopping cart functionality.
- Designed reusable UI components for scalability and maintainability.

Developer Portfolio (React • Tailwind CSS)

- Designed and developed a responsive portfolio showcasing projects and technical skills.
- Implemented dark/light mode, smooth animations, and reusable UI components.
- Optimized for accessibility and mobile responsiveness.

React Notes App (React • JavaScript)

- Built a note management application with create, edit, and delete functionality.
- Managed application state using React Hooks.
- Designed a clean and responsive user interface.

AI Background Remover (React • Node.js • REST API)

- Integrated an AI-powered image processing API for background removal.
- Developed an intuitive upload and preview interface.
- Handled asynchronous API requests and user feedback.

Skills

- Frontend: HTML, CSS, JavaScript, React, Tailwind
- Backend: Node.js
- Programming: Java (OOP), C++ (DSA)
- Database: MySQL
- Tools: Git, GitHub

Core Competencies

- Responsive Web Development
- Component-Based Architecture
- REST API Integration
- Problem Solving
- Clean & Maintainable Code

CERTIFICATES

2025-04-30 NumLogic Coding Competition - (NUML Islamabad)
